

Junior Report for the Spring Session 2014

This spring we will hold the Junior Convention on May 10, 2014 at Mississippi College in Clinton, MS. I project this year's convention to be a successful event. Responses from teachers who are interested in their students participating have been promising. We look for a strong attendance in this year's convention by pulling in more attendance from other districts outside of District IV.

In May, plans are in the works to increase the length of the convention by one hour while expanding the competition events to two performance areas to expedite time. At this year's convention we are staying on course with the preset plans by adding the hymn division to help increase participation.

A junior committee meeting is in the works to revisit ideas, to evaluate the progress and to brainstorm new ideas for upcoming junior conventions.

More information will be released in the 2014 fall session.
